Gaston DiBello

1892-1967

GASTON DiBELLO

Gaston DiBello of Buffalo, New York, nationally known numismatist and owner of one of the finest collections of U. S. coins and Patterns and foreign coins, was born in Potenza, Italy on January 2, 1892. He came to this country in 1904 at the age of 12 and settled in Buffalo. The Buffalo area became his home for 63 years.

He served in the U.S. Navy as mechanic's mate in World War I, seeing service in the North Sea and Scotland. After the war, his interest in mechanics lead to a Pontiac dealership — one of the first in Buffalo. It was the largest in western New York State when he retired after 27 years.

Interested in numismatics since his boyhood, retirement enabled him to devote more time to study and extensive travel in his search for choice numismatic material. In 1954, Mr. DiBello traveled to Egypt to attend the famous King Farouk Coin Auction. He came home with 40 coins, many of them prized rarities.

His exhibits won awards wherever shown throughout the United States and Canada. In 1962, Mr. DiBello won the highest honor for exhibitors when he was awarded the Howland Wood trophy for Best-in-Show at the American-Canadian Numismatic Convention held in Detroit. He was exhibiting his rare collection of U.S. Patterns. In the course of the decade following 1955 his beautifully presented displays won him more than 60 trophies and prizes.

Mr. DiBello died suddenly on January 21, 1967, while attending the Mid-Florida Coin Convention in Orlando, Florida. His many friends and fellow numismatists sent letters of condolence to his family from all corners of the United States, Canada and Europe.

Mr. DiBello was a director and former president of the Buffalo Numismatic Association, a member of the American Numismatic Society, and life member of the American Numismatic Association, No. 194. He also belonged to the Rochester Numismatic Association, the Empire State Numismatic Association, the Canadian Numismatic Association, and many others.

The consistent success Mr. DiBello enjoyed as an exhibitor was partly a reflection of the high quality of the coins in his collection. An informed numismatist, he always strove to acquire coins in the best possible condition, as a careful perusal of the pieces described in this catalogue will demonstrate. Many of his acquisitions are rare in their own right. Many others are rare simply because they are superb specimens seldom available on today's market.

The DiBello collection is unusual in several other respects as well. It includes a remarkably comprehensive group of foreign gold coins from most of the countries which issued gold during the last two centuries. The Latin American section is particularly strong. The British and Commonwealth series gave Mr. DiBello ample scope to pursue his interest in patterns and proofs. All the major countries of Europe are represented by groups of important pieces. There is also a strong U.S. section to be auctioned next Spring.

Although the point may be obvious to some, it is still worthwhile mentioning that in our experience no important collection is ever without a particular area of concentration. For obvious reasons Mr. DiBello was strongly attracted to the issues of Italy, the land of his birth. **The Italian coins** in this Sale are exceptionally choice and include the pride of his foriegn pieces. It is safe to say that seldom, if ever, has such a large number of choice and rare Italian gold coins been offered for Sale in the United States. Many of them have not even been available in their country of origin in a long time and it may be a good many years before they are available again.
